

Famazonia accused Acia of crimes against the environment and racism. So, to fix the environment problem, Meredith Storm or any other citizen of Acia will not build a new casino for 7 years. So no more forest will need to be cut down. In this way nature can rebuild itself in various areas. We will even take it to the next level and build a nature park with a big pond and a lot of trees and other greens.

A good compensation we made with Farmazonia regarding the racist claim, is that our nature park will be named after Kila. Kila is the man who was humiliated by Meredith Storm. The park will be named "The Natural Tekila Park". We also grand him free all-in vacations for as long as he lives on the Black Jack Isle. He will also get a nice indemnity of 10.000 Aces, which is the same as 5.000 Owes.

NEWSLETTER MAY 2019

Acia is going green

After accusations from Farmazonia about crimes against the environment, the counsel of Acia made a new building plan. The fourth casino that is in the making will be our last for the next 7 years. The plan is to create a natural park with a swimming pond. In this way, Acia can attract tourists in a greener environment.

Farmazonia accused Acia of crimes against the environment and racism, and of course something needs to be done about this. The counsel of Acia sat together with the counsel of Farmazonia and the victim of racism, Kila. A greener plan and some other conditions was the result. First of all, Acia apologised to Farmazonia for racism. Due to the construction of the new casino, Meredith has very little free time in her diary so there was a miscommunication. Furthermore, Acia wants to show Kila that he is always welcome and grand him free travels to the Black Jack Isle for the rest his life, he can also enjoy all the accommodations there for free.

Because of Farmazonia's good idea to make Acia greener and more ecological, the council of Farmazonia participated in the decision-making process regarding the Natural Park. This way Acia hopes for the respect of the greenest country, Farmazonia. The park will be called "The Natural Tekila Park". To honour the victim's name anyway.

The park is going to be built on the Black Jack Isle, close to the beach. Because of the warm weather on the island we can attract more people to our lake. Acia wants to create a place where friends and family can spend a quiet day at the lake. Our park will be filled with a lot of special and rare trees and flowers. There will also be a guide available to lead you through the park and tell you more about the various rare plants that are present. The contract for the Nature Park has already been signed but the building plans are still in the making.
