

We did it! The Black Jacks won gold at the UBN World Cup!

The time has finally come. After a year of hard work our national polo team, The Black Jacks, won gold at the UBN world cup. In the final they competed against the exceedingly strong, The Dare Devils. It was thrilling up to the very last second.

Numerous things happened during the match. First of all, the proposal of Luke Tense: one of the best players of the team proposed to his wife, Carol Grace. Before the game started, all lights went out and the arena was illuminated with thousands of flashlights. A choir started singing a beautiful song and then Luke asked his girlfriend to join him on the field. He spoke loving words to his future wife and then proposed to her. What a way to start the final game!

Apart from this great start, more than 6 players were injured during the final. Two of those, Brody Lopressor and Angelo Rutherford, will be injured for a while. Both of them tore the ligaments. We wish them a speedy recovery!

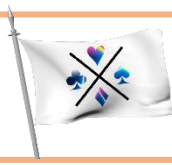

Besides the injured players, a horse was also hurt. During the fall of Angelo Rutherford, his horse Dream fell to the ground. She will be out for a few weeks.

The winning goal became one to remember. The star player Luke Tense, who asked his wife to marry him earlier that evening, hit the ball straight into the goal while he fell off his horse in the very last minute of the game. It resulted in spectacular images. Luke's evening couldn't have been better!

What a terrific game it was. All citizens of Acia are very proud of our Black Jacks. This is just the beginning!

Dice Of Fortune is back!

On the first of April, the annual Dice Of Fortune tradition comes back to Acia. All citizens can test their faith in the biggest game ever seen. Every single one, poor or rich, can go hunting for the lucky dice. Finder is keeper and as it is a golden dice, that person will have hit the jackpot right away.

Years ago there was a man called, Jackson McJackson, better known as Black Jack. He won every poker game he played by using his lucky dice that he called his 'dice of fortune'. This dice was only used by him and it is said that if anyone dared to use it too, it would take revenge. Mr McJackson had an apprentice, who once was too brave: he came back but never the same.

When Black Jack died his dice was incorporated in the National Museum of Acia. Now there is an annual tradition to commemorate Black Jack. It takes a lot of bravery to use the lucky dice, but nowadays the dice doesn't take revenge anymore. On the contrary, a large reward is waiting.

On April 1, lucky day, all citizens of Acia, regardless of social class, can try to find the lucky dice. This game is very hard because Acia is a big country and initially nobody knows in what part of the country the dice is hidden. During the day, some hints will be given on the Instagram page to narrow down the location of the dice. It is the ideal occasion to take a road trip, get to know new people and explore new parts of the country. The only thing you have to be is very fast and very smart.

The finder of the Dice Of Fortune will be flooded with money, gold and best of all status. The winner will also be granted a nice and carefree week of holiday on the Black Jack Isle.

There is only one thing left to say: Good luck and let the game begin!
